Career Objective:

A passionate **Junior Fullstack Software Developer** based in Bangladesh with expertise in React/Next.JS, Firebase, and modern UI libraries. I specialize in building responsive, user-centric web applications and aim to grow into a full-stack role while collaborating on impactful projects.

Technical Skills:

Languages: JavaScript (ES6+), HTML5, CSS3

Front-End: React/Next.JS, Tailwind CSS, DaisyUI, TanStack Query, Axios

Back-End: Node JS, Express JS

Database: MongoDB

Auth: Firebase Auth, JSON Web Token

Tools: Git & GitHub, Netlify, Vercel, Figma (Basic)

Soft Skills: Problem-solving, Team Lead, Communication, Time Management.

Projects:

EasyStay— Short-Term Rental Marketplace (Team Project)

[Live](#) | [Code](#)

EasyStay is a modern accommodation booking platform connecting property owners and travelers in Bangladesh. It offers seamless property listing, booking, payment, and management features with real-time updates, secure transactions, and an intuitive user experience.

- **Property & Search:** Hosts add/edit listings; users filter stays by location, price, and features.
- **Easy Booking:** Real-time availability with quick confirmations and role-based dashboards.
- **Payments:** Secure Stripe payments with automatic invoices.

Tech Stack: NEXT JS, Next Auth, MongoDB (Mongoose ORM) , Recharts, Stripe, Tailwind CSS, JWT, Shadcn UI

Petsera — Pet Adoption & Donation Platform

[Live](#) | [Client](#) | [Server](#)

MERN-based pet adoption & donation platform with Firebase-JWT auth, role-based dashboards, Stripe payments, and responsive UI for secure adoption, donation, and admin moderation.

- **Pet Adoption:** Browse, add, and adopt pets with an easy request and approval system.
- **Donations:** Secure Stripe-based donations for pet care and campaigns.
- **Access & Admin:** Firebase + JWT login with dashboards and full admin controls.

Tech Stack: React, Node.js, MongoDB, Express JS, Firebase, Stripe, Tailwind CSS, JWT, Shadcn UI

MA Restaurant — Restaurant Management app

[Live](#) | [Client](#) | [Server](#)

MERN-based restaurant management app with dashboards, secure JWT auth, dynamic filtering.

- **Dashboards:** Built admin/user dashboards to manage foods and orders with secure JWT access.
- **Challenges:** Worked on dynamic forms and safe database operations.
- **Future Plans:** Add delivery scheduling, push alerts, and report export features.

Tech Stack: React, Node.js, MongoDB, Express JS, Firebase, Tailwind CSS, JWT, DaisyUI
